Dear Mr David Riley,

Producer Responsibility Obligations (Packaging Waste) Regulations 2007 as amended

Decision on application for exporter accreditation.

RE: Puzhou International Ltd

The Environment Agency has considered your application and hereby grants accreditation to **Puzhou International Ltd** as an exporter of **Plastic packaging waste**, subject to the conditions of accreditation set out in Schedule 5 of the above regulations. Your accreditation is also subject to the specific conditions imposed by the Environment Agency under Paragraph (1)(q)(iii) of Schedule 5, as detailed on the enclosed notice of accreditation.

The accreditation only applies to the named overseas reprocessors in the attached annexe and for the material specific reprocessing activity detailed in your application, and agreed by the Agency for **2014**.

Your accreditation will entitle you to issue evidence that packaging waste has been exported for reprocessing. The National Packaging Waste Database allows you to issue electronic evidence to compliance schemes and producers.

This accreditation does not replace any other environmental authorisations that you may have for the site. You must still comply with these and other relevant legislation.

Accredited exporters can only issue ePERNs on waste exported in compliance with the Transfrontier Shipment of Waste Regulations 2007 (SI 2007 No. 1711) and various Council Regulations including EC/1013/2006 on the supervision and controls of shipments of waste within and into and out of the European Community. So you should ensure compliance with those regulations.

This accreditation is granted for the following period:

Start date – 04 February 2014

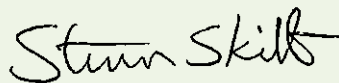

End date - 31 December 2014

We may cancel the accreditation or in certain circumstances it may be 'deemed' to be cancelled.

This accreditation only applies to the above named company. You must notify the Agency immediately in writing of any changes to the details submitted with your application. If you sell the business you will no longer be an accredited exporter. The purchaser of the business may have to make a new application for accreditation.

If you have any specific queries about your registration or general queries regarding the Regulations please do not hesitate to contact Chris Bray on 03708 506 506.

Yours sincerely

Steven Skitt
